MEMORANDUM FOR: Director of Information Technology, DDA
INFO: Chief, Information Management Staff, DDO
FROM:
SUBJECT: Request for VM Equipment
REFERENCE: Memorandum to Chief, IMS, dated 5 December 1985, Same Subject

1. On 5 December 1985 submitted a priority request for Wang and VM equipment for the 9th floor of Key building. To date, that equipment has not been installed. The Wang order has been delivered and will be installed within the next few days, but the VM order appears to have slipped into a long list of routine requests left over from the FY-86 moratorium.

2. The VM equipment is critical . Without it we are not able to implement a number of very high priority operational programs . continues to have to work all of the administrative data bases and the Division budget from one VM terminal.

3. Your assistance to expedite this critical requirement for VM equipment would be very much appreciated. Questions on this order should be referred to secure.

MEMORANDUM FOR: Chief, Information Management Staff

FROM: [REDACTED]

SUBJECT: Wang and VM-Requirements [REDACTED]

Attached is a list of the subject requirements, generated by our expansion into space vacated in Key building by the DDI in January 1986. The need for additional space is caused by the reorganization of [REDACTED] for response to priority Intelligence Community requirements. The installation of this equipment is needed to enable us to complete the reorganization [REDACTED] and begin to respond rapidly to these requirements. It is critical that the equipment be installed on a priority basis. Please insure that power requirements are surveyed along with drops for the new equipment. Your assistance to help us to expedite this request would be very much appreciated.

25X1 MEMORANDUM FOR: Chief [REDACTED]

25X1 FROM: [REDACTED]

Chief, Information Management Staff

SUBJECT: Request for VM Equipment

REFERENCE: Memorandum to Director, OIT, dated 20 October 1986, Same Subject

1. In response to the referenced memo, IMS has elevated the priority of subject terminal actions to near the top of the DO priority list. Accordingly, it is now projected that these actions will be completed in mid-November of this year.

25X1 2. If further details are required, the point of contact is [REDACTED]
